### PERSONAL PROFILE

Software engineer with a passion for front-end development. Proficient in using Javascript, React, HTML, CSS, and Bootstrap. Knowledgeable in development, testing and debugging processes. Background in art and design, understanding the importance of efficient user experience and web design. Able to self-manage during independent projects as well as collaborate and communicate on team.

### SKILLS

React, React Native, Next.js, JavaScript, TypeScript, HTML, CSS, Sass, Bootstrap, Node.js, Flask, Express, PostgreSQL, RESTful APIs, Git, GitHub, Heroku, NPM, VS Code, Figma, Mocha, Chai, Knex

### RELATED EXPERIENCE

- **Software Engineer Apprentice | McKinsey & Company** 01/2024 - 04/2025
  - Developed full-stack applications across multiple teams, applying best practices to write scalable, maintainable code.
  - Strengthened engineering mindset by focusing on software design principles, code optimization, and efficient system architecture.
  - Collaborated with cross-functional teams to deliver high-impact solutions, leveraging technologies such as React, Next.js, Python, and Flask.
  - Enhanced interpersonal and networking skills by engaging with peers, mentors, and industry professionals in a dynamic, fast-paced environment.
  - Continuously learned and adapted to emerging technologies while contributing to innovative, business-driven software solutions.
- **Shopify Developer | Moment Station.** 06/2023 - 09/2023
  - Co-developed a custom Shopify theme, implementing DRY code for efficiency.
  - Designed and built responsive pages, sections, and snippets using Liquid, Bootstrap, HTML, and CSS.
  - Created Figma mockups to ensure seamless design-to-development transition.
  - Optimized site performance for both desktop and mobile users.

### EDUCATION

- **Apprenticeship, Software Engineering | Multiverse** 01/2024-04/2025
  - Completed a 3-month intensive bootcamp and ongoing weekly workshops focused on React, JavaScript, Python, and React Native.
  - Worked with apprentices from multiple companies to enhance technical and problem-solving skills through collaborative projects.
- **Bootcamp, Software Engineering | Thinkful, Online** 01/2023 - 09/2023
  - Learned industry best practices and software development standards with focus on Javascript, HTML5, CSS3, React Native, Node.js, PostgreSQL, RESTful API's, algorithms, and data structures.
  - Developed and deployed mobile-first applications while learning new languages and frameworks, spending several hours per week collaborating with senior web developers in mentor-student relationship.
- **Certificates**
  - Microsoft Azure Fundamentals (AZ-900) | Microsoft | Year Earned – Gained foundational knowledge of cloud concepts, Azure services, security, and compliance.
  - React – The Complete Guide | Udemy | 01/2023 – Gained proficiency in React, including JSX, hooks, state management, and integrating APIs.
  - The Complete JavaScript Course | Udemy | 10/2022 – Mastered core JavaScript, asynchronous programming, and OOP principles.
  - Build Responsive Websites with HTML & CSS | Udemy | 06/2022 – Developed expertise in building and optimizing responsive, semantic websites.
